Re: REACH Regulation (EC) No 1907/2006 Concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) for Pure Substances and Mixtures

Dear Sir/Madam,

We are pleased to inform you that IMERYS Graphite & Carbon complies with REACH registration requirements for all its products including Graphite, Calcined Coke, Silicon carbide and Carbon Black including mixtures prepared from these products.

We kindly ask you to refer to the Table below for the REACH status of our products and to check the corresponding product SDS for the composition of the product or mixture.

Substance	CAS Number	REACH Registration Number	Status	Only Representative
Graphite (Synthetic and Expanded)	7782-42-5	01-2119486977-12	Registered	Ramboll Environment & Health GmbH (Munich, Germany)
Graphite (Expandable => sulphuric acid, compound with graphite)	12777-87-6	01-2119514421-54	Registered	Ramboll Environment & Health GmbH (Munich, Germany)
Silicon Carbide	409-21-2	01-2119402892-42	Registered	Ramboll Environment & Health GmbH (Munich, Germany)
Carbon Black	1333-86-4	01-2119384822-32	Registered	N/A
Natural Graphite	7782-42-5	N/A	Exempt	Exempt: Naturally occurring substance
Coke	64743-05-1	N/A	Exempt	Annex V: all types of petroleum coke are exempt from registration

In addition, IMERYS Graphite & Carbon has taken the necessary actions to register its own products, and has verified with its suppliers the REACH compliance of purchased products used in the mixtures formulations.

All products manufactured or purchased by IMERYS Graphite & Carbon are compliant with the requirements of REACH (pre-registration, registration or exemption).

We are closely monitoring all developments linked to the REACH regulation and in contact with our own suppliers to ensure developments are met.

This information notice will be updated accordingly on regular basis. For further details please do not hesitate in contacting me.

Best Regards,

Editta Marchesan
 IMERYS Graphite & Carbon
